

RUGGED M220S-04 SERVER

Military-Grade 2U Short-Depth Server

The **M220S-04** is a rugged 2U server built with heavy-duty sheet metal, purpose-built for short-depth, mission-critical applications. Tested to meet MIL-STD 810 and 461 standards, it delivers military-grade durability for the most demanding environments.

Featuring the latest Intel® Xeon® scalable processors, and support for NVIDIA GPU Graphics Card, the M220S-04 offers exceptional compute and graphics performance. Its application-specific, rugged design includes up to three PCIe Gen 4 slots, flexible AC/DC power options, and a compact 20-inch depth. Transit-ready configurations make it ideal for tactical operations, mobile platforms, and rugged enterprise deployments.

- Application-specific design
- Tested to meet military standards
- Built in the USA
